Please read SAFETY INSTRUCTIONS carefully before using the chair.

# INFINITY

## Evoke Massage Chair

### Function Introduction

1. The evoke massage chair gives you an advanced massage on the neck and back using different techniques like kneading, tapping, pressing, knocking, and shiatsu.
2. With back scan technology the Evoke massage chair can supply a custom massage to different people with different body height and shape.
3. One-button press to achieve a zero gravity position. Zero Gravity can alleviate the pressure on spine and joints allowing you to experience relaxation from stress.
4. The forward sliding function allows you to move chair closer the the wall than most massage chairs. This takes full advantage of available space in your home.
5. The foot rollers in combination with the footrest airbags and gentle stimulation of your soles will give you amazing comfort and relaxation in your feet.
6. Leg parts equipped with multiple airbags, perform pulse air pressure massage on legs, to promote blood circulation, and restore vitality.
7. Airbag massage on your arms helps to promote blood circulation in the arms, wrist, and hands.
8. The seat uses gentle squeezing massage powered by airbags. This helps to relax the stressed muscles and quickly eliminate tiredness.
9. The legrest can be adjusted to any angle and can be extended and retracted within the range of almost 8 inches, suitable for many different heights.
10. High resolution colorful LCD remote control can show the parts being massaged, methods of massage, and chair status all at the same time.
11. Warm and comfortable heating therapy in the lower back area to promote blood circulation and relieve pain.

- ★ 1. Thank you for choosing the INFINITY Evoke massage chair.
- 2. Please read this manual carefully before using the chair.
- 3. Please keep this manual in a safe place for further reference.
- 4. Please pay attention to SAFETY INSTRUCTIONS.

★ Note: We reserve the right for design modification. It is subject to change without notice. The pictures in this manual are only for reference. Please refer to the actual product.

	<ul style="list-style-type: none"> <li>Please turn off the power switch and unplug the power after massage.</li> </ul>	
	<ul style="list-style-type: none"> <li>Unplug the power immediately when electricity goes off.</li> </ul>	To avoid damage or accidents when power on again.

## Grounding instruction

※The chair is equipped with a cord having an grounding conductor. The plug must be plugged into an appropriate socket that is properly installed and matched with the plug.

## Replace fuse

When the fuse is burned out, please turn off the power switch and unplug the power. Open the lid over the fuse which is located in the switch box. Replace the fuse with a good fuse of the same size and specs, then close the cover and test chair. If you are not able to do this, find an electrician to replace the fuse.

  
Earth wire is not allowed to be in these places

Gas pipe: could cause fire.  
Phone wire and lightning rod: could cause fire or electric shock.  
Water pipe: plastics will not provide correct ground.

## Installation (1)

## Step 1. How to move the chair

- ① Two or more people grasp left and right metal seat frame, take the chair body, back cushion, head pad, seat cushion and electric power cable out of the packing box.

(as shown in the picture)

Massage chair main body

Head pad

Seat cushion

Electric power cable

Back cushion

- ② Take out left and right armrests from the carton, make sure to grab two sides of armrest and move softly (armrest is put in upside down in carton); put armrest flat on floor or table (do not scratch armrest), when assembling the armrest, grab two sides shown in picture and lift up.

Right armrest

Left armrest

## Installation (2)

## Step 2. How to assemble the backrest

Raise the backrest of the chair to 120 degree till "click sound" comes out which means the backrest is locked well with the buckle under the seat.

## Step 3. How to assemble the left and right armrest

- ▲ Before install the armrest of chairs, please confirm the controller is in the middle of legrest.
- ① Unscrew the bolt on the seat frame with phillips screwdriver; ② Press the button which on the fixed hole by hand, insert the fixed hole which inside the back of armrest into the fixed bolt of side backrest; ③ Insert the square tube into the side piece of the seat frame; ④ Slightly move the armrest to make the front and back panel match bolt hole on the seat metal frame, screw bolt on the hole; ⑤ Connect air hoses of the same color on the armrest well to the ones from seat; ⑥ Joint LED wire on the armrest with the LED wire in the seat.
- ▲ When assembling, please make sure not to squeeze air tube, LED wire and controller line.
- ◆ How to disassemble the armrest: Disconnect LED wire and air hose between the seat and armrest; Unscrew the four bolts on the seat; lift up the front of armrest, let the square tube of armrest move out from the plate of seat frame; and then press the button on the fixed hole at inside of the back armrest, pull the end of armrest at same time, move the fixed hole away from the fixed axle which on the side of backrest, then it will finish to disassemble the armrest.

## Installation (3)

**Step 4. Put the back**

Cushion, head pad onto the backrest and connect the two parts with zipper and velcro.

Back cushion

Head pad

★ **Helpful tip**

In order to get exact correct body test data for comfortable massage effect, when you sit on the chair, please make the bottom rim of the head pad flush with your ears before zippering the said two parts.

**Step 5. Seat Air tube Connection**

Connect the air tubes with seat sushion and seat frame, keep the same color together and connect them tightly. Grey with grey one, dark brown with dark brown one. Then connect the velcros of seat cushion and seat frame.

Grey air tube    Dark brown air tube

## Installation (4)

**Step 6. After the Assembly**

After the assembly, please operate the chair in this order:

- ① Plug the cable line in the hole a on the power box as shown in the right picture.
- ② Insert the plug of cable line into the socket.
- ③ Switch on. (Switch on/off "O/I", press I down to turn it on.)
- ④ Enjoy the massage by using the remote control.

Make sure the switch is off before you insert the plug of cable line into the socket.

## Environment

## Caution

Don't use the chair in wet places like near swimming pool, bath room to avoid leakage or electric shock.

Don't use chair in direct sunlight or near a heating appliance to avoid deterioration of the upholstery.

Please use chair on a flat surface to avoid any unexpected behavior of chair, or damage to chair.

## ● Check area around chair before use.

Check around the back and front of the chair to make sure no people, pets, or other objects are in range of chair.

## ● Check power cable, plug

- (1) Clean dust from plug and cord (using a dry cloth).
- (2) Check there is no damage to cord anywhere.

## Check environment

## ● Space size for using the chair

- At least 4 inches from wall.

- At least 12 inches from front of chair.

## ● Check surroundings

When the backrest or legrest reclines or extends, please pay attention to:

- (1) Check any person or things in every direction.
- (2) Check the space size.

## How to move massage chair

## Caution

- ✦ Don't move chair when it's working in case of accidents or damage

## How to move

- (1) Bind the cables and remote and put them in the seat to avoid damage when moving the chair.
- (2) Do not drop the chair at any time. Shock may damage the electronics.
- (3) Don't use the castor if the floor is wooden or other easily scratched material. Use 2 or more people to lift the chair.
- (4) Make sure the chair is unplugged before moving. Make sure the chair is in full upright position.

## Normally

- ① Lift up the legrest to make the gravity fall on the castor. Then push chair to destination and set it down.

Please hold the footrest to move the chair as shown in the picture in case any scratches on the leatherette

## Adjustment before massage

## ● Before adjustment

- ✦ Please make sure the massage head in right position before sitting on the chair (to avoid massage roller hitting your head)

## ✦ Computer controlled back scan.

If the computer and massage rollers can't get a good scan, the chair will default to the highest position.

**Right Position:** Your back is on the chair back, your head is on the pillow.

The remote control gives a "beep" sound after back scan is complete. If micro-adjustment is needed, just press up/down on the remote control.

- ✦ Please follow instructions for best scan, this will give you the best massage.

## ● Kind suggestion

- When you feel the intensity isn't strong enough, take off the pillow or cushion.

- Because the chair is heavy, it can cause damage to flooring. Please put a blanket or carpet piece under the chair to protect the floor.

## Manual control

On/Off

1. Press power button under standby status, massage chair enters ON status. Press Menu or any Auto massage program. In ON status, press power button, massage chair will turn off and return, massage machine stays in upper backrest, legrest stays in the lowest position, backrest stays in the highest position, controller will turn off after 2-3 seconds.

- ③ After restoring, put the controller back into the embedded arm massage position of the right armrest.

- ④ Put the back cushion and pillow pad on to the right position.

- ⑤ Switch off the power.

- ⑥ Unplug the electricity from the socket. (Attention: hold the right plug position)

- ⑦ Clean the chair if necessary.

## Attention!

- After using, press ON/OFF to end all the massage method and wait for restoration. Make sure to cut the electricity to avoid any unexpected hurt to children or pets.
- After using, turn off the power, unplug the electricity. Avoid moisture, dirt and aging of insulation

## Synthetic leather

## ● General cleaning

Clean with tidy, soft and dry cloth

(Chemical or medical cleaning products are forbidden)

## ● If vinyl is dirty

- ① Dip soft cloth into 3-5% neutral detergent solution, squeeze it then clean the stain on the surface gently.
- ② Wash cloth, squeeze it and wipe with detergent.

- ③ Clean it softly with dry cloth.
- ④ Allow to dry (air blower is prohibited)

## Cloth material

- ① Dip cloth into weak neutral detergent, squeeze it and clean the material surface.
- (Diluent, gas, alcohol are prohibited)
- ② Brush the dirty parts with weak neutral detergent. (avoid excessive brushing)  
Excessive cleaning may cause damage to cloth material.
- ③ Wipe with water-dipped but squeezed cloth.
- ④ Allow to dry.

## Plastic parts

- ① Dip cloth into neutral detergent, squeeze it and clean.
- ② Wipe with water-dipped but squeezed cloth.
- ③ Allow to dry.

## Clean the controller

- ① Wipe with soft cloth after squeezing.

- ② Allow to dry.

Propellant, diluent or alcohol are prohibited.

## About cleaning

- Before cleaning, unplug the electricity, don't touch plug with wet hands.
- Make sure hands are dry when plugging to the socket.
- If failed to follow the mentioned instruction, user may get electric shock or burned.

## FAQ and Troubleshooting

Trouble	Possible reason	Troubleshooting
The massage chair can't work after power is on.	Check if the control is on or not.	Open control switch
	Not choose massage function	Choose massage function
	Check whether the plug and socket in poor contact.	Make sure plug and socket are connected.
	Wire or plug has damaged.	Please ask manufacturer or appointed or authorized maintenance man for checking and replacement.
	The fuse burned out.	Replace fuse of same specification.
	Something wrong with inner circuit	Please ask appointed or authorized maintenance man for checking and repairing.
There is beep sound inside the massager while working.	It is sound of air pump, motor and mechanical parts.	Normal sound, no need to pay attention to it.
Different height of the left roller and right roller.	Massage rollers work on shifts.	Normal, no need to pay attention to it.
Sound suddenly becomes much louder while working.	Check if it is due to long time working.	Turn off the power to have the massager rest for over half an hour before next turn working.
	Inner parts fretted away due to long time work. It's normal	Please ask appointed or authorized maintenance man for checking and repairing.
Massage function suddenly stops while working.	Suddenly power-down	Connect the electricity power again
	Setting time is up.	Turn off the power to have the massager rest for over half an hour before next turn working.
Neither the backrest nor the legrest can be lay down.	Check if there are any obstacles; the chair overloads; for the sake of safety, sometimes the massage machine may automatically stop working.	Remove the obstacles; turn off the power to have the massager rest for over half an hour before next turn working.
The chair can't return to its original position.	Excessive operation; setting time is up.	Please ask manufacturer or appointed or authorized maintenance man for checking and replacement.
Electric wire or plug give out heat	It may work overload	Turn off the power to have the massager rest for over half an hour before next round working.
	Other abnormal case	Stop using, and ask appointed maintenance man for help.

Note: If the troubles are not caused by above reasons, please turn off the power switch and cut off the power, then contact the manufacturer or service agent to repair your chair.
