INFINITY SMART CHAIR-X3 MESSAGE CHAIR  
QUICK START GUIDE

Once your chair is plugged in and the power button on the rear lower panel is in the on position, you can begin using your massage chair. Start by pressing the power button on the upper left of your remote.

Auto Programs - You can choose one of the six auto programs by selecting the auto button on the remote. 1) Sports Refresh 2) Extension 3) Rest & Sleep 4)Working & Relief 5)Neck&shoulder 6)Waist&spine The programs take you through a fully automated massage each addressing your specific needs. The massage time can be adjusted by selecting the desired time in the menu under settings. Auto timer options are 10, 20, and 30 minutes.

Custom Massage - After pressing the power button then press the “Menu” button directly below the power button. From the menu select manual then mode then one of the six roller massages 1) Kneading 2) Tapping 3) Knocking 4) Shiatsu 5) Sync (tapping and knocking) 6) Rhythm (Sync to music coming in through Bluetooth). While enjoying any custom massage, you can further customize by selecting the manual options available in the menu for “Part” and/or “Width” and/or “Speed”.

To enjoy a foot massage, activate the foot rollers with the “Rollers” menu option. The three speeds can be changed in this menu.

Select “Heat” from the menu to activate the Lumbar Heat. Allow a few minutes for the heat benefits to be felt.

Music – Relax to your own music selection using a music compatible Bluetooth device. Using your bluetooth device, you can pair with the chair allowing it to stream your music through the stereo system built into lyashi. Volume is controlled from the music device. Music selection is done from the music device.
